CAREER OBJECTIVE

Enthusiastic and detail-oriented Computer Science and Data Science student, eager to apply engineering principles to solve complex problems and deliver innovative software solutions. Committed to fostering a culture of inclusion and collaboration, I aim to leverage my programming skills and passion for technology to empower users and organizations worldwide.

EDUCATION

Degree	Institute	Board/University	CGPA/Percentage	Year
B.Tech	GRIET, Bachupally	GRIET	8.56/10	2023-2027
Intermediate (MPC)	Shivani Junior College	TSBIE	95.6%	2023
SSC	St.Thomas High School	SSC	10/10	2021

PROJECTS

• AgriConnect

2025 – 2026

Full-Stack Web Application (React.js, Node.js, MongoDB, Google Gemini AI)

GitHub Repository

- Architected a scalable multi-role agricultural platform with 5 dashboards using React.js SPA and role-based access control (RBAC).
- Built a real-time Mandi Price Engine integrating Government APIs and web scraping with server-side caching (15-min TTL) for improved performance and reliability.
- Integrated Google Gemini AI to develop 7 modules including crop disease detection (image-based), price forecasting, yield prediction, and multilingual voice assistant.
- Developed a Smart Crop Marketplace with demand matching, contract workflows, escrow-based payments (UPI/Bank), and scheduling features.
- Engineered a modular RESTful backend (Node.js, Express.js) with JWT authentication, bcrypt security, Multer file uploads, and scalable MongoDB schemas.

• Car Rental Web Application

2025

MERN Stack (MongoDB, Express.js, React.js, Node.js)

Live Demo

- Developed a full-stack car rental platform enabling users to browse, filter, and book vehicles with real-time availability.
- Designed a responsive UI using React.js ensuring cross-device compatibility and improved user experience.
- Implemented secure authentication and authorization (login/register) for managing user access.
- Built booking and reservation modules with dynamic pricing, duration selection, and confirmation workflows.
- Created RESTful APIs using Node.js and Express.js for handling user data, bookings, and vehicle management.
- Utilized MongoDB with Mongoose for efficient data modeling of users, cars, and booking records.
- Deployed the application on Vercel, ensuring availability in a production environment.

SKILLS

- **Technical Skills:** Python (Basic), C (Basic), Java, OOPS through Java, MySQL, DBMS, Data Structures and Algorithms, HTML, CSS, JS, ReactJS
- **Soft Skills:** Leadership, Communication, Quick Learning, Problem Solving, Teamwork.

STRENGTHS

- Leadership
- Time Management
- Communication
- Consistency

CODING PROFILES

- **Leetcode** : 1,873 rated, leetcode.com/u/Pittala_Rakesh/
- **Codeforces** : 1151 rated, codeforces.com/profile/rakeesh.com
- **Codechef** : 1664 rated, codechef.com/users/rakesh_04_20
